

GALUBSKI (w/Piper)

INT. JAXON'S KITCHEN - DAY

The guys are at Jaxon's house laying out a nutrition plan. There are some healthy groceries on the counter. Galubski, the nerdy analyst chimes in.

JAXON

Can I have energy drinks?

Galubski walks in a tight circle.

GALUBSKI

Never ever ever ever! Did you not know that energy drinks are formulated with excessive quantities of caffeine and sugar which can be dangerous to your cardiac health, and many have a variety of plant extracts that are known carcinogens?

Piper cuts him off.

PIPER

Skip the infomercial Galubski and stick with the nutrition program.

GALUBSKI

You bring me aboard to analyze, and you don't want to hear the information? That really hurts.

Galubski pushes up his glasses and then crosses his arms.

PIPER

Ritter, give Galubski a big fat hug and a latte so we can stick to the mission. Up next, vitamins.

Galubski jumps up and down and claps wildly.

GALUBSKI

I'm over the moon with joy. That's my department. Vitamin, mineral and supplemental breakdowns. I have a chart so you can follow along with my presentation.

He hands a thick binder to Jaxon.

PIPER

Vitamin chart? Looks like the whole vitamin manual.

GALUBSKI

Don't be lime green with envy. I have one for you too.

He hands a book to Piper and Ritter.

PIPER

Hooray.
